### 5.2.2 Communicating the quality policy

The quality policy will:

- a) be available and be maintained as documented information;
- b) be communicated, understood and applied within the organization;
- c) be available to relevant interested parties, as appropriate.

Our quality policy statement (Doc. No.: QMS-MAN-009) documents and communicates the importance of meeting or exceeding all applicable requirements (including customer, regulatory and legal requirements) through continual improvement of our processes, and services.

We ensure that our quality policy is understood, implemented, and maintained at all levels of the organization through widespread printed distribution of our quality policy statement, and through periodic management review of the quality policy statement and corporate level improvement objectives. In addition, our quality policy and objectives are communicated and deployed throughout the organization through individual performance objectives established and reviewed during employee performance reviews. And it will be defined in local language for the better understanding. Same will be made available on our web site and displayed on main gate for communicating to all the interested parties.
